We advise clients to wear loose dark, casual clothing. Exfoliate - In the shower before arriving for best results. Do not wear deodorant, perfumes or creams on the skin. If your preferred method of hair removal is shaving either do so minimum 24 hrs before application or wait until you are washing off your colour guide after full tan development, which is the better option. It is advisable to wear a coat of varnish on your nails to protect from staining. Invest in a prescribed aftercare product to maximise, maintain and enhance your tan. Bridal Parties are advised to have a trial application prior to the big day.
